

# Care & maintenance

## LINEN & COTTON

Congratulations on your new sofa! To ensure it remains as beautiful and comfortable as the day it arrived, we've outlined a few helpful tips for care and maintenance.

### CLEANING

Your sofa is designed with longevity in mind, crafted from high-quality fabric that deserves the right care. To maintain its texture and appearance, we recommend professional cleaning when needed. This ensures the fabric is treated with proper care, helping your sofa retain its fresh and inviting look for years to come.

### FOR EASY GUARD CUSTOMERS

If you've chosen our Easy Guard insurance, you're in safe hands! In the event of stains or damage, we kindly ask that you reach out to Easy Guard directly for assistance. They're equipped to handle these situations with expertise. Please avoid trying to wash or treat stains yourself, as this could compromise the fabric or void your coverage. Let Easy Guard take care of it for you—it's what they're there for!

### LINEN/COTTON UPHOLSTERY: BEAUTY IN EVOLUTION

One of the standout features of your linen or cotton sofa is its natural upholstery, designed to age gracefully and develop a unique character over time. With regular use and exposure to light, you may notice subtle shifts in colour—these natural variations are part of the fabric's inherent charm. They enhance the authentic, lived-in look of your sofa, giving it a timeless quality that only improves with age.

### ADDITIONAL TIPS FOR LONGEVITY

- Fluff cushions regularly to maintain their shape and even out wear.
- Avoid placing your sofa in direct sunlight for extended periods to minimise accelerated fading.
- Use a gentle vacuum attachment to remove dust and dirt, keeping the fabric fresh and clean.

By following these care instructions, your sofa will continue to be a comfortable and stylish centrepiece in your home, growing more inviting with every passing day.
